

## M120 SERIES

# 13 SEER, R-410A Packaged Air Conditioners & Heat Pumps Fixed-Speed, 2-5 Tons\*

Smart  
Cool™  
410A

## Maytag® Comfort

Congratulations! You are considering one of the most dependable and trusted brands in the home appliance industry: Maytag. For more than 100 years, Maytag has meant dependability, reliability and worry-free performance to millions of homeowners. You can expect the same quality when you purchase a Maytag M120 Series 13 SEER packaged air conditioner or heat pump to cool or heat your home.

## DEPENDABILITY FROM THE INSIDE-OUT

Below are key features and benefits of Maytag's 13 SEER\*\* packaged air conditioners and 13 SEER/7.7 HSPF\*\* heat pumps.

- The protective paint finish resists corrosion 50% better than comparable units. The corrosion-resistant drain pan quickly and efficiently drains condensation from the evaporator.
- Each unit offers Maytag's 12-year Worry-Free Limited Warranty on parts.
- Our Dependability Promise states that your entire air conditioner or heat pump will be replaced in the first year should your compressor fail. See your warranty for details.
- The wire guard coated with earth-friendly epoxy and mesh hail guard protect against damage from yard hazards.
- The high-efficiency fan blades and condenser motor ensure quiet operation and low vibration.
- Environmentally friendly R-410A refrigerant is non-ozone depleting.

\* Packaged Air Conditioner 3, 4 & 5 Tons  
\*\* SEER: Seasonal Energy Efficiency Ratio  
HSPF: Heating Seasonal Performance Factor

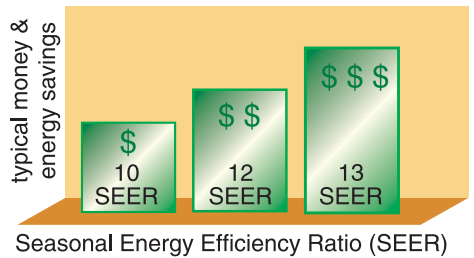

## DEPEND ON MAYTAG®

Just as you expect from Maytag, your packaged air conditioner or heat pump offers one of the best warranties available in the industry. The 12-year limited parts warranty reflects Maytag's commitment to you. Ask your select Maytag heating and cooling dealer for details, or visit us at [www.maytagvac.com](http://www.maytagvac.com).

## SAVING MONEY AND CONSERVING ENERGY

Your air conditioner or heat pump's Seasonal Energy Efficiency Ratio (SEER) measures how efficiently the unit cools your home. The higher the SEER rating, the more efficiently the unit performs, which results in lower utility bills. Your heat pump's Heating Seasonal Performance Factor (HSPF) is a measure of the average number of Btu of heat delivered for every Watt-hour of electricity used by the heat pump over the heating season. As ratings increase, so does unit efficiency.

Our Dependability Promise states that your entire air conditioner or heat pump will be replaced in the first year should your compressor fail. See your warranty for details.

Maytag Large Packaged Systems feature Smart Cool 410™ refrigerant, an earth-friendly, non-ozone-depleting refrigerant.

Smart Cool is a trademark of NORDYNE.

## CREATE TOTAL INDOOR COMFORT

Thermostat

Your packaged air conditioner or heat pump is only one part of the comfort system that affects your air quality and energy savings. The following system components from Maytag can improve indoor air quality and help ensure the performance of your packaged unit.

**Programmable Thermostat:** The thermostat automatically adjusts your indoor temperature to accommodate both your home and away schedules, thereby reducing energy costs.

**Humidifier:** Climates with dry air can irritate your skin and trigger allergies, as well as cause furniture and dry wall to crack. A whole-house humidifier helps maintain appropriate moisture levels within your home.

Humidifier

**UV Germicidal Lamps:** Installing an ultraviolet accessory on your unit helps eliminate odor-causing mold and fungus that can develop in the wet area of an evaporator coil or drain pan.

**Electronic Air Cleaner:** Improve indoor air filtration with an electronic air cleaner that can remove 95% of household allergens, such as dust mites, pollen and smoke.

For more information about these and other Maytag accessory products, please consult your select Maytag heating and cooling dealer.
