

TECHNICAL SPECIFICATIONS

S5BP Series

Split System Air Conditioner
7 1/2 Ton Energy Star rated at
11.7 EER and 11.8 IEER

10 Ton rated at
11.2 EER and 11.5 IEER
R-410A Refrigerant

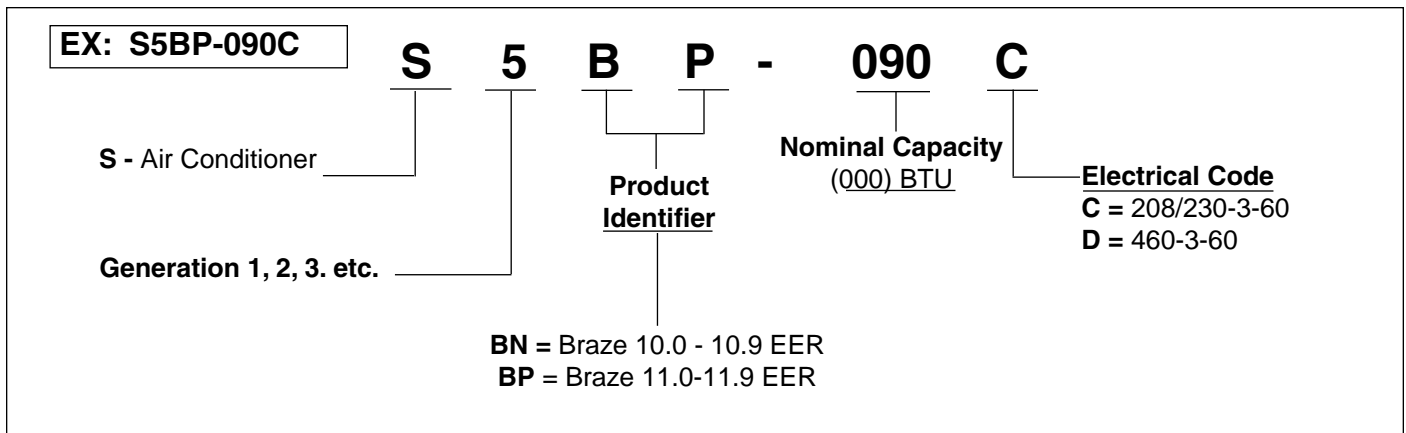

The S5BP Series of air conditioners offers exceptional performance. The unit, when combined with our air handlers, offers a line of quality, split system cooling equipment. Units are ideally sized for slab or rooftop mounting in light commercial applications.

FEATURES and BENEFITS

- **Quality Compressor:** State of the art scroll compressor is standard equipment providing single stage operation.
- **Hi/Low Pressure Switches:** Ensure long compressor life. Featuring auto reset.
- **Durable, Attractive Cabinet:** Designed using galvanized steel with a polyester urethane finish. The 950 hour salt spray finish is 1.5 mil thick and resists corrosion 50% better than comparable units.
- **Copper Tube / Aluminum Fin Coils:** Both indoor and outdoor coils are designed to optimize heat transfer, minimize size and cost, and increase durability and reliability.
- **Permanently Lubricated Motor:** A heavy duty PSC motor for long lasting reliability and quiet operation. Requires no maintenance and is completely protected from rain and snow.
- **Full Service Valves:** These brass valves are easily accessible and simplify servicing of the refrigeration system.
- **Plastic Mesh Hail Guard:** A guard that will never rust and protects the units coil from being damaged.
- **Removable Top Grille Assembly:** Allows ease of service to the fan motor.
- **Raised Base:** The sturdy base keeps the bottom of the coil out of harms way and allows water from rain to flow away from the unit.
- **Five Minute Restart Time Delay:** When the unit shuts down, a five minute delay keeps the unit from restarting, eliminating the highest cause for compressor failure.
- **Easy Compressor and Control Access:** Designed to make servicing easier for the contractor, access panels are provided to all controls and the compressor from the side of the unit.
- **1 Year Limited All Parts Warranty, 5 Year Parts Coverage on Compressor:** Proven to be a major benefit to the end user.
- **90 VA Transformer:** Includes 4 Amp circuit breaker to protect low voltage circuit.
- **Liquid Line Filter Drier:** Field installed for convenience.
- **Suction Accumulator and Crankcase Heater:** Protection from liquid floodback and future compressor failures.

Note: Net capacity includes indoor blower motor heat deduction. Gross capacity does not include indoor blower motor heat deduction.

¹ Certified in accordance with A.R.I. Standard 340/360 at 95° F Outdoor DB and 80° F db/67° F wb evaporator entering air at minimum external duct static pressures allowed by the standard.

² E.E.R. - Energy Efficiency Ratio. E.E.R. is determined @ 95° F Outdoor DB & 80° F DB / 67° F WB Air Indoor

³ I.E.E.R. - Integrated Energy Efficiency Ratio. Certified in accordance with A.R.I. Standard 340/360.

⁴ Delay Fuse or HACR Type Circuit Breakers can be used.

⁵ Add / Subtract 9.0 oz. of refrigerant per 5 feet change in length from original 25 Ft. lineset total system charge.

⁶ Requires a 1-3/8" to 1-1/8" reducer line to unit.
