

A photograph of a multi-generational family sitting on a light-colored sofa, playing cards. From left to right: a woman with short brown hair, a young boy, a woman with long brown hair, an older man with white hair, and a young girl with a ponytail. They are all smiling and looking at their cards. The background shows a window with white curtains and a green plant.

**NuTone Quality Pledge and Warranty**

## The NuTone Quality Pledge and Warranty

We believe NuTone heating and cooling products are the best available. That's why we offer a 10 year warranty on all parts and we'll replace your entire unit should a heat exchanger or compressor fail within the first 10 years\* of purchase.

Here's how our Quality Pledge works: Your NuTone heating and cooling unit(s) will be replaced with new equivalent equipment should your compressor or heat exchanger fail during the first 10 years (with product registration) or 5 years (without product registration) of ownership. NuTone split systems must be installed with a NuTone matched indoor coil or air handler.

Here's how our Warranty works: All parts on your NuTone heating and cooling unit(s) are covered by a 10-year warranty with product registration, or 5-year warranty without product registration. Air handlers and coils carry a 5-year all parts warranty and when installed with a matched outdoor unit, will carry the outdoor system warranty. NuTone builder's series models carry a 2-year all parts warranty and a 5-year compressor warranty.

Also, when registered, furnaces that carry a 20-year limited warranty will be upgraded to a limited lifetime heat exchanger warranty.

Simply register online at [www.nutonehvac.com](http://www.nutonehvac.com) or return your product warranty postcard, and your product warranty and pledge will be upgraded from 5 to 10 years.

LIMITATIONS: For all systems not registered within 60 days of purchase, the 5 year parts warranty and standard quality pledge applies. Standard compressor and heat exchanger warranties apply for applicable products not registered. See actual warranty for details.

Warranty and quality pledge are applicable to original owner; single-family, owner-occupied residences. This extended product coverage is non-transferable. See warranty document for coverage on commercial and multi-family properties if applicable.

NOTE: A labor fee up to \$250 will be paid for the Quality Pledge to help replace the failed piece of equipment to the servicer.

\*ES/ET and NS/NT Models carry a 1-year Quality Pledge when registered.
